Dear Parent/Carer

As you may be aware from Gavin Williamson's announcement yesterday (6/1/2021) several mobile phone networks have offered up some increases in data allowance, free of charge, to facilitate engagement with online learning for students accessing lessons through mobile networks. This is something that only schools or trusts can apply for.

Please do be aware that this only applies to the following networks -

EE

Sky Mobile

Smarty

Three

Tesco Mobile

Virgin Media

Our records indicate that your son/daughter is a student who is accessing their lessons in this manner, and as such we would like to support you in applying for an increase in the data allowance for your child. If you feel that this is necessary (if, for instance, your child already has an unlimited data package, or they access the work through their phone but via a wifi network rather than mobile data allowance there is no need to apply for this).

If you feel that this would be of benefit to your son/daughter's online learning, please go to the school's website main page (<https://icenimethwold.attrust.org.uk>) where you should see a red box pop up, saying 'Increase mobile data allowances, click for more information'. If this doesn't pop up, there is a link a little further down the page which will do the same thing.

When you click on the link it will take you to a data capture sheet, which you will need to fill in for the application to be processed.

There are only 60,000 upgrades available nationally, so please do complete this form as soon as possible to give yourself the best possible chance of receiving this upgrade. Unfortunately, we cannot guarantee that all applicants from Iceni will receive this upgrade.

If you have any questions about this upgrade, or any concerns about your son/daughter being able to access online learning please do not hesitate to contact me. My email is [Adam.Carter@iceni.attrust.org.uk](mailto:Adam.Carter@iceni.attrust.org.uk)

Yours sincerely,
